Station Bellary , *Dated the* 17.8 1942.

From (Name) Sri. A. RAGHAVA REDDY, B.A.,
(Designation) Municipal Commissioner, Bellary.

To The Secretary to the Government of Madras,

PUBLIC WORKS Department.

Through Janab D. Abdul Rawoof Sahib Bahadur, B.A., B.L., M.L.A., Chairman, M.C. Bellary.

Sir,

Ref: G.O. No.A-826 dated 7-3-42 of the Department of Labour, Govt. of India :-

...

1 On 31-1-42 an application was received from one Mr.H. Linga Reddy, Advocate, for supply of energy to an electric pump to be installed to the above mentioned well. There was considerable delay in the electrical engineering section in preparing the estimate for this application. It was finally prepared on 2-7-42 and signed by the Engineer on 10-3-42. Before the estimate could be despatched to the applicant for depositing the service connection charges, the Government Order referred to above prohibiting the grant of new service connections was received; the estimate was not therefore communicated to this party.

2 His application was however forwarded, along with other applications, to the Govt. for sanction, without making a mention of the special circumstances of the case; but the Govt. were not pleased to accord necessary sanction for this connection.

3 The applicant who secured the pump and motor long ago now represents that he will be out to lot of inconvenience if the connection is not given and requests to reconsider his case. There was no difficulty in the matter of granting such connections ~~xxxx~~ in the past and so the party was given to understand when he applied for a connection, that his request would be complied with. The installation is also found advantageous to the municipality, indirectly too, in the matter of giving some relief in the consumption of protected water supply which is also by no means adequate and which is wanted for the use of Civil Pioneer Force, Jails, etc., The council is therefore encouraging as a policy, the installation of pumps to wells, to relieve strain on protected water. The applicant has also expressed his desire to make the pump available to the use of the public of that locality.

4 Considering the above circumstances I request the Govt. to be pleased to accord sanction for the above connection.

5. Application in the prescribed form is enclosed.

APPLICATION FOR ~~LETTER~~ TO SUPPLY ELECTRIC POWER TO A CONSUMER.

1. Name of Electricity supply Undertaking. Bellary Municipal Electrical works,

2. Registered Address. -do-

3. Name of Consumer. Sri. K. Linga Reddi Advocate, Civil Lines

Registered address of consumer.

Address at which supply is required. Bheema Reddi's Compound Civil Lines, Bellary.

Present maximum demand (if any of consumer)

Estimated maximum demand required by consumer and for which application is now being made. 2.2 K.

~~X~~it practicable to arrange the consumer's operations so that the ~~dx~~ demand in (7) will not occur during peak load peroid of the supply undertaking ? Yes

~~If the answer to (8) is in the affirmative,~~ By how much is it estimated that the undertaking's system maximum demand will rise?

~~Connected~~ Connected load to be installed Lighting etc..

Motors 2.2 K.W.

~~Furnaces~~ Furnaces or other heating. .. - - K.W.

11. Industry to be served (state here products to be manufactured and whether this is an expansion of present production or new products. Pumping water for domestic purposes. .. K.W

12. ~~Xxdustxyxxkaxbaxsaxxxd~~ Is the factory to work one shift, ~~two~~ two shifts or three shifts per day. Domestic Pump. ..

13. Is consumer's plant ready to take supply? If not state when it will be ready? Has purchased plant but has not been insta

14. Are products direct orders for the Department of supply.

15. Is there direct evidence from the Department of Supply or the Defence Department that this power is wanted? If so, please attach copy of letter from Department concerned.

16. Remarks by Supply Undertaking.

(a) Capacity of existing service connection if any. - Nil - K.W.

(b) Is required service A.C., D.C., High or Low Voltage. A.C. 400 volts phase

(c) Brief list of main materials required for service i.e., cable transformers, switchgear etc., G.I. pipe, V.I.R. wires cut outs, meter etc.,

(d) Approximate cost of giving service Rs. 130/-

(e) Is all the material available in the stocks of the undertaking? yes.

(f) Any other remarks by undertaking on effect of this service on system. If Controlled, not likely to increase the evening peak load.

17 (i) Remarks of the Chief Electrical Inspector to Government.

17(ii) Remarks by Provincial Government control authority.

(a) Note on the essentiality of this supply at this particular site, giving brief history of the case.

(b) What prime movers (if any) will be displaced by giving a supply of electric power? Give note of type and condition of any such engines which would be displaced.

(c) Does the Provincial Government Control authority recommend that this supply is given.

Signature of Provincial Authority.

Note. 17 (i) to be used in the case of consumers whose present or prospective requirements are 50 K.W. and less, and 17 (ii) in the case of consumers whose present or prospective requirements are more than 50 K.W.

2281 III/62 Electricity - Bellary dtl. cl - Supply to the electric pump of Sri. H. Lenga Reddi from the Commr, Bellary Mcly RC no 7505/62 & 1784 dt 1-2-62 " " CE/C R. 6.32 & 25.8.62 " the to the CE/C dt 2.9.62.

AE

Submitted. Our Co dt 2004 PW dated 17.6.62, Supply of electric power to Sri. H. Lenga Reddi for pumping was not granted as the CE/C did not recommend it. The latter reports that the conditions of essentially laid down by the Govt of India were not satisfied in the case under reference and no hardship was indicated. The Commr, Bellary Municipality has now urged for re-consideration of the order passed for the reasons given below:—

(1) The applicant secured the pump and motor long ago and will be put to a good deal of inconvenience if supply is not granted

(2) The party was previously informed that his request would be complied with;

(3) The installation will be advantageous to the municipality also in the matter of consumption of protected water supply which is wanted for the use of Civil Police Force, Jail etc. and

(4) The applicant has agreed to make the pump available for public use as well.

The CE/C now recommends the

grant of supply in view of the circumstances explained above.

2. Attention is invited to the Condition of essentiality laid down by the Govt of India. Though the party has not paid any deposit so far the date of the restriction order, yet the party has already incurred some expenditure in purchasing pumpsets on the assurance given by the Dist. Col. in regard to supply of power. Further, the supply will indirectly help the Dist. Col. in affording protected water supply to the Civil Police Force etc. The supply of power is thus indirectly in furtherance of war efforts. It is, therefore, for consideration whether the CE(C)'s recommendation will be accepted. If so, the draft order is for approval.

Are there not cases where reasons (1) on page 1 have not been accepted? Is it necessary to restrict the load of this undertaking?

Generally supply is allowed in such cases. Though Bellary Hqrs seems to lie in the diesel oil area, yet supply may be allowed as the applicant is stated to have agreed to make the pumps available to the use of the public - Vide also para 4 of Co. No 1708 PWD dated 1.6.42. A revised draft order is submitted.

Co No 3310 PWD of 10 9 42
